FUNDING EVENT

Friday 5th July
8:30 am

Securing finance or funding can seem like a mysterious art, but it can be crucial for small business growth. Luckily, it doesn't have to be time-consuming. Join us on the 5th July if you want to demystify what local funding and finance options are available for your business, hear directly from providers and ask them the questions that matter. To give time for panellists to explain what options are available we will be extending our normal networking timings.
